

Screening Mammography Waiver

The undersigned has been informed of the benefits of screening mammography, and the recommendations of the American Cancer Society, American College of Radiology, and the Society of Breast Imaging that women receive annual screening mammography from age 40 on. She further acknowledges that a screening ultrasound and/or screening breast MRI is recommended for use adjunctively with screening mammography because they are complementary imaging procedures, but that neither replaces the other in the process of screening the dense breast for cancer.

The undersigned also states that she has carefully considered the foregoing information and that, after such consideration, she does not wish to proceed with a screening mammogram, but wants to receive a screening breast ultrasound examination and/or screening breast MRI. Her signature below shall be considered as her informed refusal to have a screening mammogram, and her request to proceed with a screening breast ultrasound examination and/or screening breast MRI.

The Undersigned further acknowledges that her insurance, **MAY NOT** pay for the expense of a screening breast ultrasound examination and/or screening breast MRI and, by her signature below, agrees to be responsible for the cost of the screening breast ultrasound and/or screening breast MRI.
